Оборудование и материалы, необходимые для проведения занятия: интерактивная доска, мультимедийный проектор, компьютер, презентация к занятию, аудиофайлы, раздаточный материал, рисунки с изображением различных профессий.

Ход занятия

1. Приветствие гостей.

Hello everyone! We are glad to see you! Today, children, we have an unusual but very interesting lesson. I'm sure you will like it. Meet our guests from Canada (звучит гимн Ворлдскиллс).

2. Организационная часть.

Let's get acquainted with our guys. They are two young masters (музыка, входят Алмаз и Алтын).

Almaz: Hello, boys and girls! We are glad to see you! Our names are Almaz and Altyn. We would like to tell you about a great event that awaits us next summer.

Almaz and Altyn: It is WorldSkills 2019.

Altyn: How are our names translated? (Diamond and gold).

Almaz: We are very hardworking, curious and responsible. We are skilled specialists of the future. What kind of person are you? What subjects are you good at? (Ответы детей, прилагательные на экране).

Altyn: We see that you are purposeful and like to study. Now look at the screen.

3. Из истории мирового чемпионата «Ворлскиллс».

WorldSkills is a great event that unites different countries and nationalities. It is held to inspire young children to develop a passion for skills, to raise the profile of blue-collar jobs and of course to help students from all over the world to make the right choice in choosing career.

The WorldSkills movement started in post-war Spain in 1953. The main activity of WorldSkills International is organization and delivering of professional competitions at various levels for young people under 22 years. The WorldSkills Competition, which is also called Skills Olympics, is held every two years.

On 10 August 2015, at the WorldSkills General Assembly in San Paulo (Brazil), Russia won the right to host the WorldSkills Competition in 2019.

The 45th WorldSkills Competition will be held in Kazan from 22nd to 27th of August 2019. It will have over 1600 competitors aged under 25 and over 1500 experts. More than 50 skills will be represented in Kazan Expo International Exhibition Centre.

4. Игра «Назови прилагательное».

Nowadays there are about 2 thousand professions in the world. But only one must become your profession.

To become a good specialist in this or that field each person should have definite qualities. What are the main in your opinion? These adjectives can help you or you may use your own ideas. Thank you for your ideas.

5. ФИЗКУЛЬТМИНУТКА. Песня «Peoplesong».

(<https://www.youtube.com/watch?v=JBXaupIJHr8>).

Now look at the screen and listen to the song about professions.

6. Kazan is the capital of the championship.

Altyn: Children, how do you think why WorldSkills 2019 will be staged in our city? (Our city is beautiful and modern. Representatives of different nationalities live in Kazan. There are a lot of universities and factories here.)

Altyn: Yes, you are right. Kazan is a cultural and historical centre. Do you know where Kazan Expo International Exhibition Centre is situated? (It is close to the Kazan International Airport. I think it's large and modern.)

Altyn: Yes, its covered space is over 100.000 square metres. And look, not far from Kazan Expo there is the WorldSkills Village. The guests will have a comfortably stay during the Competition.

7. Игра «Угадай профессию».

I would like you to play the game «Guess the profession». Please read the definition and name the profession.

He bakes bread.

He works in a circus.

She knows all the pills for animals.

He fixes cars.

She studies at school.

He serves people at a restaurant.

She makes hairstyles.

She grows flowers.

He protects people.

She works in a theatre.

8. Who are volunteers?

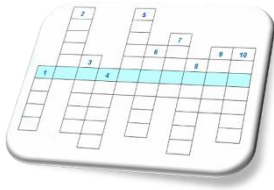

Almaz: To become a real specialist each person should have different qualities. What qualities should volunteers have? (Responsible, patient, hardworking, friendly, helpful).

Almaz: Imagine 3500 volunteers from Russia and other countries will be involved in the WorldSkills Kazan 2019. What do you think volunteers do at a skill competition? (Help tourists and participants, help to deliver competitions, help to organize different activities, they help as translators).

Almaz: I fully agree with you. Any person over 14 years old can be a volunteer of the WorldSkills Competition. It's a good opportunity for them to travel, learn new things and make many friends.

9. Игра-кроссворд «Напиши название профессии».

Thank you for your answers. Our game hasn't finished yet. Let's do the cross-word. Please, read the question and write down the name of the profession.

Questions:

Who flies the airplane?

Who dances?

Who helps sick people?

Who works in a field?

Who helps children to learn?

Who brings letters?

Who helps doctors?

Who fights with fire?

Who can play tricks?

Who helps you if you have a sick tooth?

I see that you really know a lot of professions and I hope that in the future you will become good specialists.

10. Игра-проект «Город профессий».

At the beginning we were listening to the song about professions. And you saw a town and many people of different professions in this town. Let's make our town. Please choose a card with the profession you like the best and stick it on the board. Explain your choice.

11. Заключительная часть. Подведение итогов.

So, we have talked about the WorldSkills movement. The mission of the WorldSkills Competition in Kazan is to gather young professionals from around the world in this city; to continue the traditions of professional skill development; to make the life in Kazan more interesting, more comfortable; to provide us and our

children with the opportunity to do their favorite and interesting work; to form a positive image of Russia in the world.

Maybe someday you will also become participants in WorldSkills competitions, as competitors or volunteers. We now know that WorldSkills is not only for the best in the profession, but for the whole society.
